## START OF THE NEW TROLLEY ROAD

Dr. C. E. Stark and A. L. Potter Attend the Formal Cere-  
mony at East Hartford—First Shovel of Dirt  
Taken by W. S. Garde of Hartford.

The historic town of East Hartford  
was the scene of a new activity Tues-  
day when several of the directors and  
stockholders of the Norwich, Col-  
chester and Hartford Traction com-  
pany went to the village of Hilltown  
in an extreme remote section of the  
town, where Walter S. Garde took the  
first shovel of dirt which will mark  
later the opening of the new road con-  
necting Hartford with Norwich.  
A party from Hartford consisting of  
Mayor Smith, Gen. Henry C. Dwight,  
president of the Hartford board of  
trade, W. W. Willes, vice president  
of the Hartford Business Men's as-  
sociation, Dr. C. E. Stark and A. L.  
Potter, directors; Walter S. Garde, a  
stockholder, and Gen. Alexander H.  
Harrison, went to the scene in auto-  
mobiles and took part in the opening  
ceremony. They were met there by  
the engineers and contractors, and  
several others who are interested in  
the new road. There were from  
10 to 15 in attendance.

At a point near the Manchester  
town line Dr. Stark gave a brief his-  
tory of the road, and then the mayor  
said that the charter was granted by  
the legislature in 1907. He then in-  
troduced Mayor Smith, who spoke for  
the city of Hartford. The mayor wished  
the directors and stockholders success  
in their enterprise, and added that it  
would be a great benefit to the two  
cities, Norwich and Hartford, when  
the line was in operation.

Following the remarks of the visi-  
tors, the contractors, the Ahen  
Bros., and others that are to help in  
the building of the road, were in-  
troduced by Dr. Stark, who congratulated  
the stockholders and the directors  
of the company in the enterprise.

The reports of the commission on  
interstate commerce show that inter-  
urban electric roads which have a  
population on the line and at the ter-  
minals of 4,000 people or more, are  
paying proposition without freight.  
This road shows a population of over  
4,000 people, and the commission  
tributary population within a reason-  
able distance of the line and termi-  
nals of more than 10,000 people to the  
line.

The road will afford to the pleasure  
seekers of Hartford, and the whole  
central division, the shortest and most  
convenient means to reach the shore  
of the Atlantic ocean, and the various  
shore resorts, and will also afford a  
very large summer travel. In the town  
of Marlborough the line runs along  
the shore of Lake Tarramungus, one  
of Connecticut's beautiful lakes, sev-  
teen miles from Hartford. A Hart-  
ford spokesman proposes to make Lake  
Tarramungus an attraction for pleasure  
seekers.

In addition to this service lines  
from the eastern division extend into  
the southern portion of Massachusetts,  
and to the various trolley centers of  
Rhode Island, which means a large  
additional passenger service, and  
our central and western divisions.

The road is now under construction  
at the Hartford end. At soon as the  
miles are completed it is to be  
equipped and put into operation, when  
the construction of the second ter-  
minal, the line will be completed and  
operated, and so on, pushing it rapidly  
to get the entire line in operation  
at an early date.
